Tour description CANYONING

*"Thought is wonderful, but adventure is more wonderful still."
Oscar Wilde (Irish poet, 1854-1900)*

Canyoning is traveling in canyons using a variety of techniques; it combines different exciting outdoor activities such as walking through spectacular gorges, thrilling abseil-action from 70 meters high rocks and along refreshing waterfalls, scrambling, climbing, jumping and/or swimming in pools. This trip is the ideal way to explore the wild side of Crete and to have a perfect unforgettable day. It will take you to places where the common trekker and climber can't get easily – as proper training and technical means are needed. There are excellent tours for beginners. But also some badass-trips!

This exhilarating adventure brings a lot of fun, thrills, a rush of adrenaline and unforgettable memories! Just don't hesitate and get where common people fear to tread!
