Tour description Coastal Trip "Unknown Crete"

*"The faster man travels the less man sees."
Erich Limpach (German lyricist. 1899-1965)*

Take yourself the time to travel slowly – and to see and experience a lot.

That's the trip for all who prefer an unbeaten track to a crowded tourist highway. That's the trip for all those who like to walk on paths you won't find in any map! If you're a strong trekker and adventurous explorer, than that's your ideal trip! This coastal walk from Ag. Ioannis to Tripiti offers whatever the explorer's heart may wish: great views, small beautiful cave churches and lonesome beaches you only can access by foot or boat. At Ag. Ioannis, where our walk ends, a boat will be waiting for us, taking us back to where we started from. Now we'll enjoy the view at the coast from the boat – while we're drinking a glass of wine! There's no better way to finish this fascinating, challenging trip!

Get off the beaten tourist track and explore the wild and unknown side of Crete!
